Melissa:

Hi, everyone! Today I would like to talk about how to become the most popular teen in school.

Firstly, I think *having a good academic result is the first factor to make you become popular since, having a good academic result, your teacher will award you in front of your schoolmates. Then, your schoolmates will know who you are and maybe they would like to get to know you because they want to learn something good from you.

Secondly, I think participating in school clubs and student unions can help to make you become popular, since after participating in these school clubs or student union, people will know who you are and it can help you to make friends all around the school, no matter senior forms or junior forms.

In conclusion, I think to become the most popular teen in school we need to have good academic results and also *participating in school clubs and student union. Thank you!

.....

Kelvin:

Good evening, everyone! So, today I want to talk about whether the sale of cigarettes should be made illegal.

As we all know, cigarettes are not good for our health, not only oneself but also other *peoples around. Moreover, many people *died of lung cancer every year because of smoking cigarettes.

But, should the government *made it illegal? I don't think so, because Hong Kong is a place *which people can enjoy lots of freedom and if the government banned the sale of cigarettes, many people would disagree *of this and stand up to fight for their freedom.

Moreover, Hong Kong is a free market. If *such a huge government intervention, I think it's not good for Hong Kong's economy.

So, if the government wants people *stop smoking cigarettes, what should it do? I think the government can use other administrative ways to *doing so, for example education and increasing the tax *of cigarettes. Also, the government can ban the smokers smoking in public areas. So, this is the end of my presentation. Thank you.
